

CONTRACT LOGISTICS

GWC is widely recognized as the market leader in warehousing and distribution, offering integrated, cost-efficient, and sector-focused solutions at near 100% accuracy for large and medium companies in the State of Qatar and the GCC. Asset-rich, providing all temperature storage options, open yard storage, in-depth knowledge of customer's supply chain requirements, and backed by unmatched infrastructure and technology such as our unique warehouse management system (WMS); therefore, a contract with GWC Contract Logistics is an immediate competitive advantage.

Passion

GWC encourages a culture of performance at every level, ensuring customer loyalty through delivering world-class services, solutions, and infrastructure. By acting as the client's diligent partner, GWC will tailor logistics and supply chain solutions that increases efficiency and reduces CAPEX.

Total storage area

GWC Contract Logistics has a wide array of warehousing and assets distributed across 10 different facilities offering our services to nearly all industry verticals in the region.

Aviation

GWC Contract Logistics serves the airline's logistics requirements, managing the warehousing and distribution of over 20,000 units of food and non-food items, uniforms, ground services' technical equipment, as well as lost and found baggage outlets, achieving 100% inventory accuracy as certified by external audits since 2009.

Telecommunications

GWC provides the telecommunications sector with seamless storage and handling solutions accomplishing their tough SLAs, including the management of over 4,000 active units in both acclimatized and open yard facilities.

Seamless logistical operations require a collection of specialized assets, modern technology and robust infrastructure to assure the success of delivery – contact us today to see how we can serve you by calling: +974 4449 3000 or email us at: info@gwclogistics.com
