

# FORWARDING

GWC Forwarding's access to Agility's global freight forwarding network of 550 offices within 125 countries is crucial for local industry and commerce. The company's robust asset base, along with strong domain knowledge and solid capabilities in the market ensures unmatched options and service levels to our clients. Coordinating shipments, with confirmation of arrival date, request for paperwork, shipment clearing at points of exit and entry, and direct deliveries creates a strong sense of loyalty to GWC.

## Passion

GWC encourages a culture of performance at every level, ensuring customer loyalty through delivering world-class services, solutions, and infrastructure. By acting as the client's diligent partner, GWC will tailor logistics and supply chain solutions that increases efficiency and reduces CAPEX.

GWC Forwarding capitalizes on the reputation it has developed in serving a variety of clients in industries as varied as food and beverage, oil and gas, healthcare, telecommunications, and many more.

### Oil and gas companies

GWC Forwarding has been contracted by one of the biggest oil exploration companies in the State of Qatar to handle the entirety of their freight operations, clearing all received cargo and transporting it from the port of entry to the various client sites.

### Government authorities

GWC Forwarding works closely with key government bodies responsible for hosting the World Cup 2022, providing them with complete door-to-door logistics solutions for the movement of their materials, including global freight, customs clearance, and transport of items from port of entry to various project sites.

In-depth knowledge of customs requirements and the span of representation offices worldwide allow for the seamless movement of shipments to and from anywhere in the world – contact us today to see how we can help you by calling: +974 4449 3000 or email us at: [info@gwclogistics.com](mailto:info@gwclogistics.com)
